AC21009 - Peer Assessment Form

TEAM # 8   YOUR NAME: Costin Grigore

....

THIS FORM APPLIES TO: ☐ just me X my whole team

On this assessment sheet, you are asked to divide **100 points** between the members of your team, **_including yourself_**.

You should make your allocation to each member on the following basis:

- technical contribution to the project
- personal contribution to the project group (e.g. as organiser, motivator, morale booster, etc.)
- ability to meet agreed goals and carry out agreed tasks

First of all, please write the names of your other team members in the spaces below, then allocate them points and comment if you wish on why you awarded the points you did:

Name of Team Member	Points Allocated	Comments
Put your name here: Costin Grigore	33	No comments.
Ryan James Crampton	34	No comments.
Ross Maider	33	No comments.
TOTAL POINTS:	100	**(MUST = 100 !)**

Please use this space to comment on how well your group worked and why. Continue overleaf if necessary.

In general the environment in the group has been really positive, even during the times when we have struggled to make some of the rules work again. All members of the group have participated into the assignment actively and everyone has attended to the meetings for the assignment, which made working on the assignment easier and more productive.

We are proud to say that all members in the group have learnt from the assignment and how a Cellular Automaton behaves.
